

HELP ME ! PROJECT OUTPUTS

5. The Survival guide

The Survival guide is a very practical booklet created by our students and intended for the young that, using a very simple language, provides definitions of the main types of disasters identified during the implementation of the project, an emergency training program (what to do in case of a disaster?), some “first aid” actions illustrated by drawings, the survival kit, European and national emergency contact numbers to be called in case of an emergency.

4. Assessment through gamification

They are two sets of games created by our students on the topics dealt with in the lesson plans – natural disasters, what to do in case of a natural disaster, first aid in case of an emergency.

3. A More Secure World: Our Shared Responsibility – Are you prepared? Know what to do in time

It is a formal output - a short course book - that contains an introductory article from BBC on climate change and its effects on our planet, a dictionary of words related to natural disasters, the same dictionary in the partners languages, both created by our students, the lesson plans created by the partner students and teachers, the links to the genially games and survival guide created by our students.

2. Project Magazine

It is an informal output containing photos, videos, comments and messages produced by the students

during the implementation of the project (LTTAs).
